Juliana über sich:

Auch wenn sie anfangs manchmal ein wenig schüchtern ist, taut Juliana schnell auf und kann sich auf neue Situationen einlassen. Zu ihren Freundinnen und ihrer Familie hat sie ein sehr enges Verhältnis und tauscht sich mit ihnen regelmäßig aus. In ihrer Freizeit macht Juliana gerne Sport, liest, trifft Freunde und spielt chinesische Flöte im Schulorchester.

Ihre Liebe fürs Reisen und das Kennenlernen neuer Länder und Kulturen ist nicht nur eine Motivation nach Deutschland zu kommen, sondern führte auch dazu, dass sie schon Holland, Belgien, Korea und andere Länder besucht hat. Wichtig ist es ihr während des Austauschjahres ihrer Gastfamilie auch etwas von ihrer eigenen Kultur, wie beispielsweise traditionellen chinesischen Feiertagen, zu vermitteln.

Schülerbrief

Dear my host family,

Hello, my name is Yi-Ting, and you can call me Juliana. I would like to say thank you for hosting me! I am 16 years old, a student of the Affiliated Senior High School of National Taiwan Normal University. I come from Taiwan. I am independent, easygoing and positive. I may be a little bit shy of new people and environment, but I believe I will adapt it soon with your love and kind assistance. I like to try new things, and that's one of the reason I want to exchange to Germany. I am not scared of adventure, I like to go travel. I really enjoy listening music, particularly pop music. During this upcoming year, I would like to tell you about Chinese traditional festival, such as Chinese New Year and lantern festival. In the same time, I will be glad if you can share Germany's culture with me. I had been to Holland before and I really like European food and culture. I believe I will love Germany as well

There are five members in my family, my dad, mom, twin brother and sister. My siblings and I have good relationship. We like to share our daily life together. In our family, we do house chore together. It is our responsibility to maintain our house environment together. I really like pets, but my dad doesn't allow having one. Therefore, I often go to my cousin's house to play with their dog.

I usually have my dinner with my friends after school. This is the most relaxing thing during the day, because we share our daily life when we having dinner. We often talk about school gossips and share each other about our happiness or troubles.

Taiwan is an island which is located in Eastern Asia, beside China. It's such a pretty place, it was called by Formosa, and the meaning of Formosa in Portuguese is beautiful. In Taiwan, we have a lot of breathtaking views and delicious food. If you have chance to visit Taiwan, I will be love to show you around and take you to try our tasty food. I like a lot of kinds of outdoor activities, such as horse riding, hiking and swimming. I love to play sports like tennis and volleyball. I hope you like outdoor activities and we can enjoy it together!

I am not good at social activities at the beginning, so I will definitely be very shy when I first meet you, but after adapting the new environment and the new people, I will get better about it. I have leant German for a short while, but I still not good at speaking German. Maybe we can have conversations in English first, but I hope I can have some time to learn more German and talk to you in German smoothly.

I am really excited about being an exchange student to Germany, and I have never been to Germany before! I hope I can learn a lot about German culture in this exchanging year. Thanks again for hosting me in this year. I believe it will be unforgettable memories for all of us. Look forward to seeing you soon.

Thank you and sincerely,

Juliana

Elternbrief

To dear host family,

We are truly appreciated your love and kind for hosting my daughter Juliana during this upcoming year.

I am Juliana's mother, Claudia. I work as a salesperson in the company. Her father Roger works in the same company as an engineer. Juliana is our eldest child in our family. She has a younger brother and sister who are twins. We live in a beautiful island's capital city in Taipei, Taiwan.

Our family likes to see movies and travel together. We enjoy watching different kinds of movies. I believe that some of movies can educate kids, and knowing the culture from movies. Moreover, we also believe that travel in different countries can broaden the horizon and gain life experience for kids, just like people said, "He that travels far knows much". When she graduated from the junior high school, our family took a trip to Holland and Belgium for ten days. This is the first time we visited Europe. We are impressed by the different ways of lifestyle and culture. So we encourage Juliana to be an exchange student in Germany to broaden her horizon. Through this program, I believe Juliana will become braver to try new things and learn different view from her foreigner friends. I think this exchange year will influence her life forever and brings her unforgettable memories.

Juliana had joined the summer camp around one month in the US when she was 13. She made a lot of good friends from different countries. By this experience, she becomes more open-minded and likes to try new things. She tried horse riding and climbing during the camp. I believe being an exchange student will bring her good impact for her life forever.

Juliana is a kind, independent and polite kid who is curious to know the world. She might need some time to integrate the new environment, but I believe with your family's love, patient and assistance, she will adapt it well soon. She has good relationship with her friends and classmates. She joins the Chinese orchestra in the high school; she plays the Chinese flute. In her free time, she likes to listen to the music and reading novels. On the weekends, she likes to hang out with friends or watching videos. She loves to play sports like tennis and volleyball. She would be glad if your family invites her to do the family activates together.

We truly hope that Juliana can be hosted in a family with love and patient. It will be good if the host family has a similar age kid to help Juliana to adapt the life in family and school. Even we will miss her so much; we don't want to be the one who stop her from growing. Overall, we will bless her instead of anxious. We will let her grows and achieves her dream. If one day that you have chance to visit Taiwan, we would be love to show you around. Thank you the dear host family who willing to help her and take good care of her. We truly appreciate!! Wish you all the best!

Warm Regards,
Juliana's parents
